Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 34 is rejected under 35 U.S.C. 103(a) as being unpatentable over Vanderhaeghe et al. (Journal of Organic Chemistry (1961), 26, 3827-3831) in view of Dunn et al. (5,622,948). The primary reference of Vanderhaeghe et al. teaches a compound corresponding to instant of formula (IIIe) wherein the leaving group at L¹ is p-toluene sulphonate (see compound X on page 3828 of the reference and also page 3831, second column, third paragraph). The claims differ by requiring the leaving group L¹ as methane sulfonate. The secondary reference of Dunn et al. teaches the equivalence of the leaving groups methane sulfonate and p-toluene sulfonate (see col. 20, lines 25-27). Therefore, one skilled in the art would be motivated to substitute any leaving group on the compound of Vanderhaeghe et al. with those thought by Dunn et al. and arrive at the instant claim because the secondary reference teaches the equivalence of leaving groups.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
